

Panel Protection

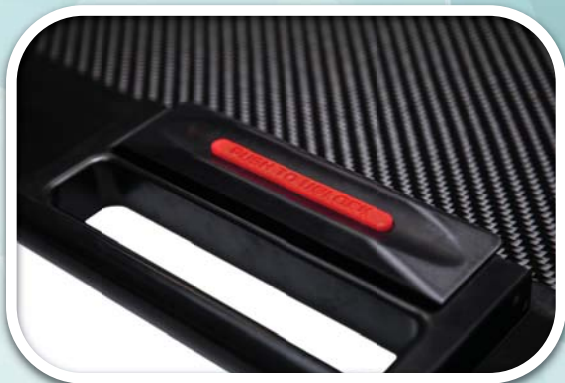

Using an expensive DR Flat Panel Protector in a mobile environment can be extremely risky. You can easily reduce the burden by protecting your investment with our Lock-N-Secure® and our NEW innovative Lock-N-Secure® II DR Flat Panel Protectors containing multiple layers to absorb impact and increase weight capacity. Our DR Flat Panel Protectors are designed for all wireless and cassette sized panels. Lifetime Warranty, Excludes Grid.

All of our panel protection products have been tested for strength and durability by an accredited independent laboratory.

Panel Protection

Positive Lock
